

Next-Level Fulfillment: Sereacts Pick-Roboter bei Active Ants

Embodied AI für Robotik

Built for Smart Fulfilment Since 2010

- Founded in 2010 in the Netherlands
- The first dedicated e-commerce fulfilment provider in the country
- Our customer promise: smarter, faster, greener logistics
- At the heart of it all: our in-house developed WMS

What makes us even more unique

Multi Warehouse Solution

IDENTICAL MULTI-WAREHOUSE SETUP

- Growth Enabler
- Instant Plug&Play flexibility
- One IT system

AUTOMATED HAPPYFLOW

- Goods to Person via AutoStore
- Internal transport via Rangers
- Automated packaging
- Fast scale-up & scale-down

MARKETPLACES

- One stock, multiple channels
- Amazon 1P/3P
- Product Flexibility

GLOBAL CARRIER NETWORK

- Multi-carrier solution
- End-to-end order visibility
- Direct injection, own linehauls
- Late cut-offs

SUSTAINABLE QUALITY

- Personalized full-color box print
- Quality monitoring weight control and basket pic
- Personalized and flexible inserts, leaflets etc.
- Cut-to-measure boxes, reduced carbon footprint

CONTINUOUS INNOVATION

- Focus as eCommerce specialist
- Operational excellence
- Standardization & replication
- Testing new technologies (AI)

2025 – Enter AI Picking

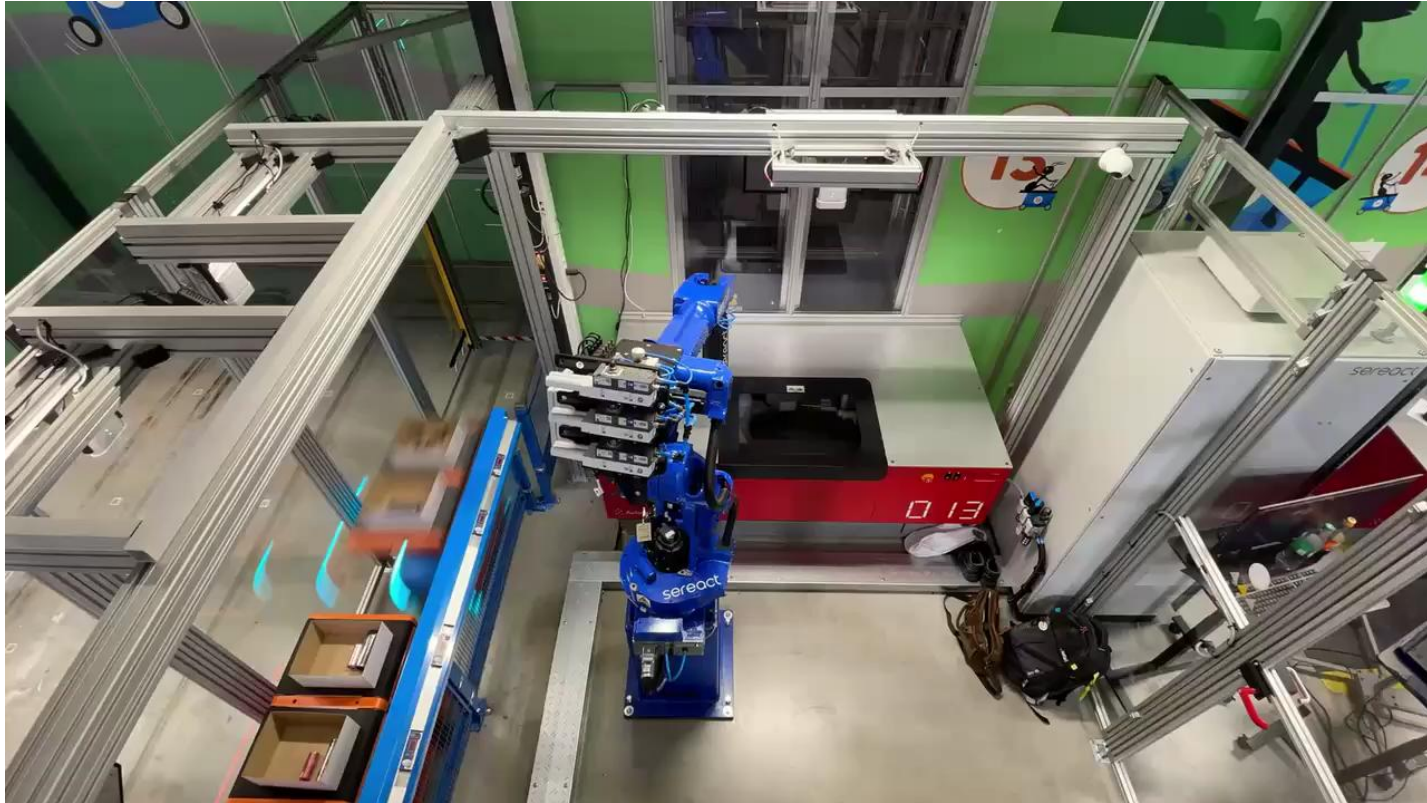

- AI-powered robotic picking system launched
- Developed by Sereact GmbH
- Visual recognition + real-time learning
- Fully integrated with AutoStore & AMRs
- Long term partnership with Sereact
- Roll out on all Active Ants Sites 2025–2026
